IP65 OUTDOOR RATED  
LED HEX PARS

# HEX IP SERIES

The ADJ HEX IP Series are versatile IP65 outdoor rated Pars with 12-Watt (6-IN-1 HEX) LEDs. With a 25-degree beam angle, users may produce wide washes with smooth color mixing from 63 built-in color macros utilizing red, green, blue, amber, white and UV LEDs. Not only are these LED Pars great for lighting indoor stages and venues, but with their IP 65 rating, there are a great solution for temporary outdoor lighting of stages or events. The IP 65 rating helps protect the fixtures from rain, snow and dust.

Other professional features include: 6 DMX modes, 5 operational modes, 5 dimming curves, flicker free operation and a 4-Button DMX menu with digital display. The fixtures are equipped with IP rated PowerLock and 5-pin DMX rubber covers and connectors. Standard 5-pin DMX and PowerLock cables may also be used but the fixture will not create a full IP65 seal.
