

The **Eliminator Lighting Stealth Beam** is a compact moving head beam fixture powered by a 60W (4-in-1) RGBW LED source and features continuous pan movement. Its compact size makes it a great solution for venues with low ceilings, such as lounges, bars, stage and nightclubs, and light weight for mobile entertainers.

It has a forward-thinking ACL lens that creates a tight 11-degree beam angle, and offers a lot of flexibility when it comes to control. Users can run it in sound active mode, auto mode or use DMX. This fixture has a maximum power consumption of 75W per fixture.

The Stealth Beam comes with an Omega Bracket so that it can be mounted on truss or ceilings using a clamp.

SPECIFICATIONS:

- LED Source: 60W RGBW (4-in-1) LED (Red, Green, Blue & White)
- Long Lamp Life: 50,000 Hrs.
- Power Consumption: 75W
- DMX Channels: 5/17 channels
