Warranty:	1 Year (365 Days)

Thank you for purchasing the CC-2016 by American DJ®. For your convenience the CC-2016 has been tested and is ready to be used, there is no assembly required.

Operating Instructions:

Unit is ready to operate. Unit features 2 x A/C 120V plugs per channel. Plug lights into unit and plug main a/c cord into 120V supply. Unit will power on automatically. Unit will either chase to the music via the built in microphone or chase to speed control when there is no music. Adjust speed / sensitivity dial for desired effect. The CC-2016 will automatically advance through the built in 16 chase programs.

Unit is designed with zero-crossing circuit allowing chasing of inductive loads such as Pinspots, Crystals™, or Sparkles™.

Footswitch option: The CC-2016 can be controlled via a 2 channel footswitch controller allowing control of all-on, and blackout. You must use a 1/4" stereo cable for the footswitch.

Caution! No user serviceable parts inside! Contact an American DJ® dealer for service.
